Phase 6: Tableau Implementation & Packaging Guide

Calculated Field Formulas, Workbook Architecture & Publishing Instructions

1. Workbook Deliverables

• smart_healthcare_analysis.twb: Standalone Tableau XML workbook referencing smart_healthcare_dataset_cleaned.csv.

• project.twbx: Packaged archive containing Book1.twb and the dataset in Data/ directory.

2. Publishing Steps to Tableau Public

1. Open project.twbx in Tableau Desktop or Tableau Public.

2. Verify that worksheets and dashboards populate cleanly.

3. Navigate to Server > Publish Workbook > Sign In to Tableau Public.

4. Copy the published web embed URL and paste into our Flask app at /tableau.
