Phase 8: Project Demonstration Planning

Live Presentation Logistics, Visual Cues & Setup Checklist

1. Demonstration Preparation Checklist

• Step 1: Ensure Python 3.14+ dependencies are active (flask, pandas, pytest).

• Step 2: Verify all 11 pytest unit tests pass cleanly: python -m pytest tests -v.

• Step 3: Launch Flask local server: python app.py.

• Step 4: Open browser at http://127.0.0.1:5000/ and test interactive features.
